

SIGHT GLASSES, LIGHT FITTINGS

Sightglass light fittings siries KVLR in stainless steel for use in safe areas

Sightglass light fitting type KVLR 20 HDW, 20 W, 24 V, with built-in momentary push-button "D", mounted with tilting hinge "Sch" on sightglass to DIN 28120, DN 100, PN 10, for application "view and light through one assembly".

Sightglass light fitting type KVLR 50 HDW1, 50 W, 24 V, with built-in momentary push-button "D", mounted by bracket "W1" on screwed sightglass similar to DIN 11581, DN 100, PN 6, for application "view and light through one assembly".

Sightglass light fitings type: KVLR

The sightglass light fittings of the series KVLR represent the stainless steel version of the wellknown miniLUX® luminaires. They offer the following main features and

- Very interesting prices due to high series production.
- Only one size for use on different sightglass diameters.
 Easiest mounting by means of a bracket "W"/"W1" or a tilting hinge "Sch"/"Sch1".
- Extremely small dimensions providing high lighting power.
- Brilliant and dazzle free illumination, even of difficult media.
- Quick change of bulbs without necessity to demount the bolted-on luminaire!
- For use in version "view and light through one assembly" as well as for the two port system.

Application:

• On sightglass to DIN 28120 from DN 25 On sightglass to DIN 28121 from DN 40 On screwed sightglass similar to DIN 11851 from DN 50

On pipeline flow indicators (in-line sightglasses)

Operating conditions:

• Independent of internal vessel pressure and vacuum.

Construction:

• Housing and fixation elements in stainless steel. Cable gland Pg 9, vertical. On request with rectangular cable gland ("K2"). Built-in reflector. Bulb socket for halogen bulbs of 20, 50 or 100 Watts. Built-in, sealed push-button for momentary operation "D" (types KVLR 20 / 50 also available without, on request). Glass disc resistant against high temperatures. Gaskets resistant against corrosion and alteration.

Electrical data:

• Supply: AC or DC Terminal voltage: 24 V*

• Power: 20, 50 or 100 W (dependent type)

• Maximum current: 4.2 A

Transformers with 24 V secondary voltage in open design (IP 00) for mounting into control panels or switch boards as well as in closed version (IP 65) may be supplied for different primary voltages and power capacities.

Bulb sockets:

• Power 20W: 2 pins socket G4 • Power 50 / 100 W: 2 pins socket GY 6.35

Enclosure protection degree:

• IP 65, dust and spray water tight.

Admitted for use in food processing industries.

Survey on standard types:

KVLR 20 HD*	KVLR 50 HD*	KVLR 100 HD*
20 W	50 W	100 W
24 V	24 V	24 V
Halogen	Halogen	Halogen
0,60 kg	0,60 kg	0,60 kg
	20 W 24 V Halogen	20 W 50 W 24 V 24 V Halogen Halogen

- For the version without push-button, the correct type designation omits the "D".
- ** Types with 20 and 50 W also available in 12 V.
 *** Without fixation. Fixations "W" / "W1" 0,02 kg, fixation "Sch" / "Sch1" 0,03 kg.

The luminaire is normally mounted by means of its fixation elements, suitably slotted to take a fixing bolt M4. This bolt fits a drilled and tapped hole in the cover flange of a sightglass to DIN 28120 / 28121 or similar as well as in the grooved collar nut of a screwed sightglass similar to DIN 11851. The position of the drilled holes may be taken from the drawings on the back of this leaflet.

Please indicate in case of order type and size (DN) of the sightglass on which the luminaire has to be mounted. In case of repeated use within a short period, the temperature raise of the housing has to be observed!
